

LOCAL QUOTES

RUSSELL ROGERSON, *Morgantown Area Partnership President*

“The Morgantown Area Partnership is thrilled to welcome the first group of Ascend WV participants to our community. This remote worker program is a key part of our economic development strategy for the Morgantown Area and we look forward to engaging on that front with the cohort. The Partnership stands ready to assist our new residents with getting involved in the community and making this home.”

SUSAN RIDDLE, *Visit Mountaineer Country Convention & Visitors Bureau President & CEO*

“We couldn’t be more excited to welcome our newest Mountaineers to Morgantown. The opportunity to share our tremendous natural resources and heritage is something special. The Ascend participants’ input, contributions, and perspectives will help us better understand what many locals often take for granted – the tremendous value and benefits of calling West Virginia our home. They will help us make West Virginia and Morgantown better for locals, future recruits, and visitors.”
